WASTEWATER TREATMENT CONSTRUCTION DATA BASE

Awards for the wastewater treatment facilities construction grants under Public Law 92-500 made during a particular month are listed in a monthly publication entitled "Wastewater Treatment Construction Data Base - Public Law 92-500 Project Records." This publication is prepared by the Grants Administration Division and distributed and sold by the National Technical Information Services.

The March 1974, issue (PB-231 300) provides a base listing of all grants awarded under Public Law 92-500. Beginning with the April 1974, issue (PB 231300-01) the listings will contain awards for one month only and will be numbered in sequence. Microfiche (24X) of each copy is also available. The subscription price is $100.00 for 12 issues. Previous issues can be purchased at $25.00 a copy.

The publication is distributed to subscribers approximately six weeks after the close of the awards-listed month. It may be obtained through:

National Technical Information Services
U. S. Department of Commerce
5285 Port Royal Road
Springfield, Virginia 22161

NOTE: All of the preceeding publications are available for examination at the Grants Office and Library of EPA Headquarters and each Regional Office.

NEW STATE PROJECT PRIORITY LIST PUBLISHED

State Project Priority Lists are expected to include projects planned for EPA funding thru the next September. Lists from some States may include a lesser number of projects, or in a few cases, a project priority list for a particular State may not have been available for inclusion in the publication. Information on the various aspects of the projects would be available only thru the respective State Water Pollution Control Agency or the EPA Regional Office, if the State has completed its processing of the application. A list of State Water Pollution Control Agencies is contained in the EPA publication "Federal Assistance Programs of the Environmental Protection Agency" listed below.

Addendums to the "Project Priority List" will be issued as these lists become available. To avoid delaying the publication of the material on hand, this Project Priority List will be issued through NTIS as part of the subscription service for the "Wastewater Treatment Construction Grants Data Base."

The "State Project Priority List" should be used in conjunction with the "WWT Data Base" since the making of an award on a project contained on this list is reflected in the monthly issue of the "WWT Data Base." Because of this and the necessity of issuing addendums to purchasers of the initial priority list, the list wil not be sold separately.

"FEDERAL ASSISTANCE PROGRAMS OF THE ENVIRONMENTAL PROTECTION AGENCY"

This publication includes descriptive information about Environmental Protection Agency (EPA) assistance programs reprinted from the Catalog of Federal Domestic Assistance, which was prepared for the Office of Management and Budget. Similar information on programs of all Federal agencies is included in the Catalog which is available from the Superintendent of Documents, Government Printing Office, Washington D. C. 20420 for $17.00 and includes charges as issued for the 1975 edition. It is also available for public use in Federal Depository Libraries.

The EPA Regional Offices and the Water Pollution Control Agency of each State are listed in the Appendixes. Applications for Wastewater Treatment Construction Grants should be obtained through the State Water Pollution Control Agencies. This booklet contains general information about the EPA grant programs useful to an applicant.

This booklet is revised periodically to reflect program changes and new legislation which affect EPA assistance programs.

Copies of this booklet may be obtained from the Environmental Protection Agency, Grants Information, Grants Administration Division (PM-216), Office of Planning and Management, Washington, D.C. 20460.

OTHER GRANT RELATED INFORMATION

A 200-250 word summary of a grant project is available on the majority of research and demonstration grants.

These summaries are available only for projects that have received EPA funding. In rare instances, a grant application may contain privileged information and is so designated. For these, only the award data, such as grant number, applicant's name, organization, location, grant title, grant amount awarded, and award date is available; other information may be available depending on the particular circumstances.

The Smithsonian Science Information Exchange (SSIE) Rm. 300 1730 M Street, N.W., Washington, D.C. 20036, receives a copy of the summary of a grant and makes it available to the public on a fee basis. The cost of a print-out, if the Agency is identified and the grant or contract number is provided, costs $1 per grant number with a $10 minimum fee. A Search on a subject (topic) is $50 per search service for 1 to 50 titles, and in addition $10 for up to 50 additional titles. A search on the investigators name can also be performed. All inquiries and request for this service should be addressed to SSIE or phone (202) 381-5511.

REPORTS GENERATED BY GRANT SUPPORTED PROJECTS

Final reports and other program reports generated by grant supported projects are published and made available if merited. Grants Administration Division does not have the responsibility for the technical monitoring of grants projects, this is the programs function; therefore, program and final report information is available from the following program offices:

For solid waste management and resource recovery:

Publication and Distribution Unit
Office of Solid Waste Management
EPA, Cincinnati, Ohio 45268

For air pollution control:

Air Research Technical Information Center
Environmental Protection Agency
Research Triangle Park, North Carolina 27711

For pesticide publications:

Information Section
Office of Pesticide Programs
EPA, Washington, D.C. 20460

For water:

Publications Branch (water) Research
Information Division
EPA, Washington, D.C. 20460

For other research and demonstration projects:

Technical Information Staff
Office of Research & Development
EPA, Cincinnati, Ohio 45268

Each of the above units publishes a bibliographic list showing price and giving purchasing information.

EPA REPORTS BIBLIOGRAPHY QUARTERLY

Quarterly bibliography series supplement the original one (EPA-LIB-73-01; PB-223 693) dated July 1973 and the first supplement (EPA-LIB-74-03; PB-234 215) dated August 1974, and the second supplement (PB-238 800) dated December 1974. It contains citations, abstracts and author, corporate source, subject, contract, and title indexes for all U.S. Environmental Protection Agency and its predecessor agencies' reports entered into the NTIS collection in the period noted

The original bibliography, and the supplements should provide sufficient information for any user to identify any EPA report desired Copies of the individual reports will be available from NTIS in either hard copy or on microfiche NTIS will also provide the EPA reports in microfiche as a set; cost figures may be obtained from NTIS EPA libraries contain complete sets of microfiche on all items included in these bibliographies In addition, a complete set has been made available to 25 foreign countries which now have, or are contemplating, the establishment of an environmental agency.

SUBSCRIPTION SERVICE

Starting in January 1975, all items entered into the NTIS information collection have been collected quarterly and published in a continuing series You may start your subscription to this series by sending your order with payment to:

Subscriptions
National Technical Information Service
Springfield, VA 22161

An annual subscription to "EPA Reports Bibliography Quarterly" costs $45 (U S), $60 for addresses outside of the U S. Individual copies can be ordered when available at a cost of $15 each (U S), $20 for addresses outside the U S

A few EPA reports announced by NTIS prior to December 1974 were omitted from the original EPA Reports Bibliography, EPA-LIB-73-01 and subsequent supplements. Those reports are included in this Quarterly.
